CIMCORP
FUTURE OF AUTOMATION

CIMCORP GROUP

Automation that grows with your business

We supply and integrate robotics, software-driven automation that keeps your materials flowing reliably and efficiently.

By combining deep expertise in grocery retail and tire manufacturing with strong lifecycle services, we help you improve uptime, productivity and long-term return on investment, both today and as your operations grow.

We develop and deliver automation solutions for material handling, order fulfillment and manufacturing environments.

BY COMBINING robotics automation, software, system integration and lifecycle services, we help customers manage material flows efficiently and reliably.

OUR EXPERTISE is built on decades of experience in automation projects across grocery retail, tire manufacturing and other high-throughput industries.

WE DESIGN, integrate and support automation systems that enable efficient operations and long-term system performance.

AS PART OF Murata Machinery, Ltd., we combine our industry-specific expertise with access to a broader portfolio of automation technologies and global resources.

THIS ENABLES US to support customers throughout the lifecycle of their automation systems, from design and implementation to optimization, maintenance and support.

“

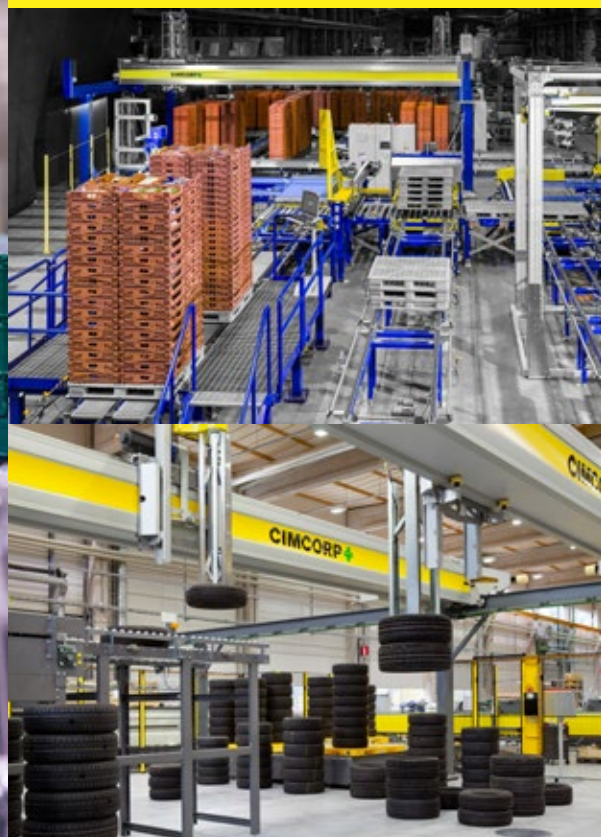

“To foresee and prepare for the future, we must understand the past.” says **Veli-Matti Hakala**, CEO of Cimcorp Group.

CIMCORP FUTURE OF AUTOMATION

CIMCORP GROUP

Powered by Murata Machinery

As part of Murata Machinery, a global automation leader with operations worldwide, Cimcorp combines agility with the strength of a global technology group.

TOGETHER, we deliver intelligent automation solutions that help businesses scale efficiently, improve operational performance and prepare for future growth.

BY COMBINING Cimcorp's expertise in intralogistics and robotics automation with Murata's extensive portfolio of technologies and global resources, we provide customers with trusted solutions, proven reliability and long-term support across every stage of their automation journey.

CIMCORP GROUP

Commitment to people, planet & profit

Through our decisions and actions, we act as a responsible partner, strengthening supply chains around the world so they function reliably on every occasion.

A **SUSTAINABLE** business model includes factors such as protecting human rights, adhering to ethical business practices (anti-corruption measures, whistle-blower mechanisms and so on), taking responsibility for the environmental impact of the company, extending responsibility to the supply chain and promoting transparency in reporting.

Certificates to support our work

Cimcorp is certified to comply with international standards for management systems. This demonstrates our commitment to continuous improvement and to operational excellence in Quality, Health, Safety and the Environment.

Cimcorp has received an EcoVadis Bronze Medal for 2026. The score places Cimcorp in the top 35% of companies assessed by EcoVadis. Cimcorps' score was also higher than 80% of companies in our industry.

EcoVadis is a global certification and Cimcorp has been evaluated annually since 2018.

Ethical conduct frames our work

Cimcorp's code of conduct presents the ethical principles that govern our business operations. These principles apply to all personnel, irrespective of their role or level. We also require our suppliers to act in accordance with these ethical principles.

We strive to create a culture in our company where each person can contribute to ensuring that we have a better and safer place in which to work.

CIMCORP GROUP BOARD AND
EXECUTIVE TEAM MEMBERS

WE'RE COMMITTED TO

➤ **DEVELOPING** modular, long-life automation solutions

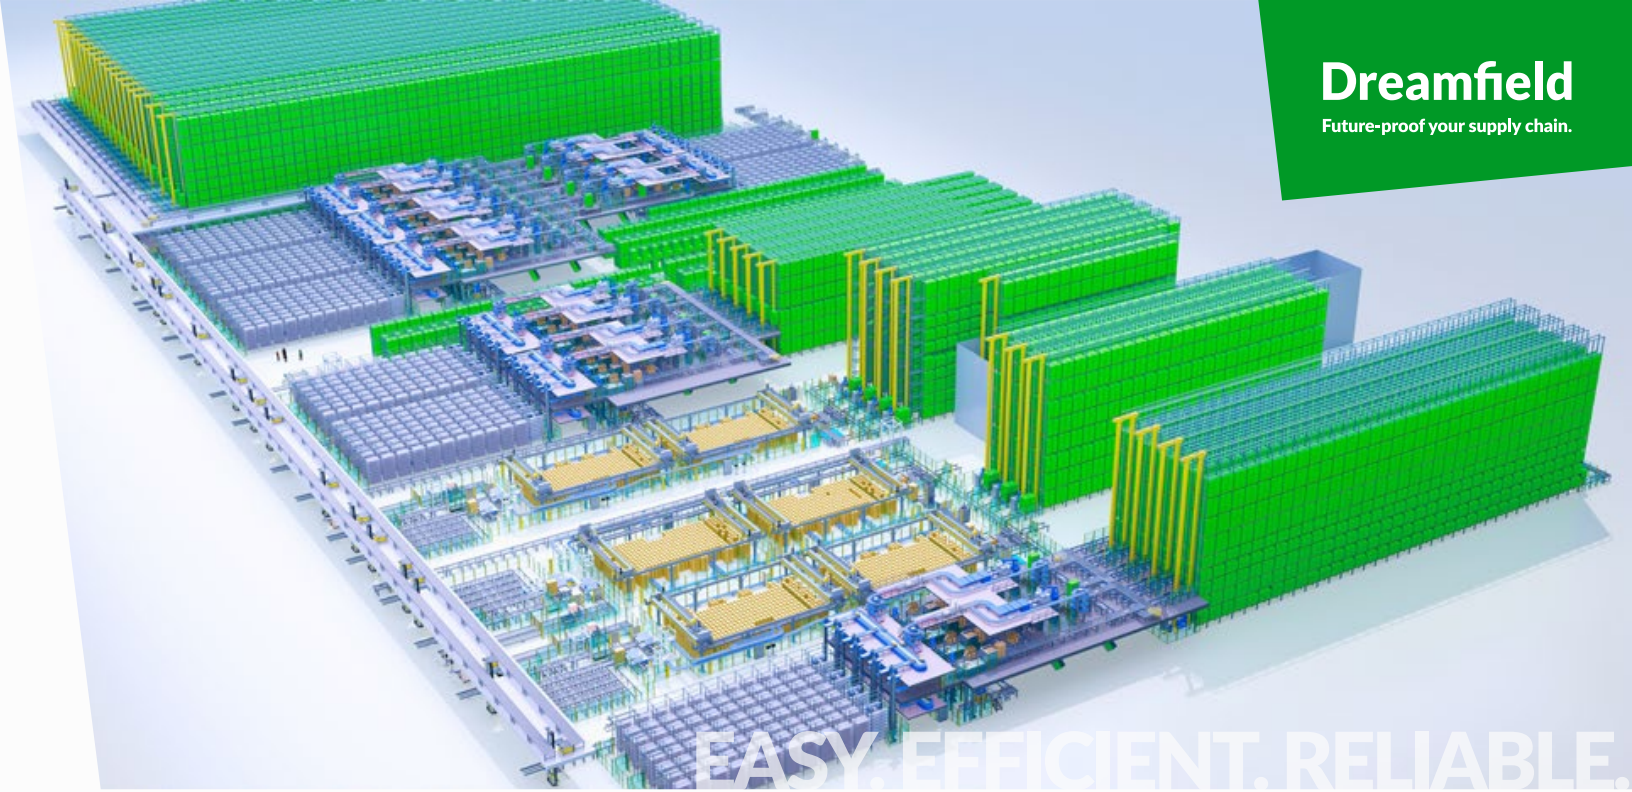

➤ **PROTECTING** data and maintaining strong information security

➤ **ENSURING** fair and equal treatment at work

➤ **ENSURING RESPONSIBLE** sourcing in the supply chain

➤ **EMBEDDING** safety into all customer solutions

➤ **IMPROVING** resource efficiency throughout the supply chain

Dreamfield

Future-proof your supply chain.

EASY. EFFICIENT. RELIABLE.

CIMCORP DREAMFIELD

Future-proof your supply chain

Dreamfield is our modular, end-to-end automation solution for grocery distribution centers, built for fresh food, dairy, bakery and beverage logistics. It connects every step – from receiving and storage to picking, palletizing and outbound flow – into one smooth process.

FAST, ACCURATE handling helps keep products fresh, while the flexible, scalable design lets you start with one area and expand as your business grows. Whether upgrading an existing facility or building a new one, the solution adapts to your needs.

DESIGNED for grocery retail, Dreamfield handles high volumes

with precision and care, ensuring product quality from warehouse to store. Built-in redundancy keeps operations running continuously.

YOU GAIN a more efficient and reliable distribution center, with improved ergonomics, enhanced hygiene and full traceability – ready to meet daily demand as well as seasonal peaks.

CIMCORP DREAM FACTORY

Boost tire factory productivity

Dream Factory is a modular, end-to-end automation solution for tire plant logistics. It integrates every stage, from raw material handling to finished tire shipping, into one efficient flow.

THE FLEXIBLE, scalable design lets you start with a single process area and expand as your production needs evolve. Whether upgrading a legacy plant or building a new one, the solution adapts to your needs.

BUILT ON decades of tire industry expertise, Dream Factory adjusts to changing volumes, product mixes and manufacturing requirements.

Smart automation helps you increase throughput, use space efficiently and predict performance.

YOU BENEFIT from a more productive and flexible factory, with higher throughput, optimized use of space and reliable operations, ready to meet today's demands and future growth.

BATTERY CELL MANUFACTURING

Optimizing EV battery factories

Our EV battery solution is a modular, end-to-end automation system for battery cell manufacturing. It brings together every stage – from raw material handling to formation, aging and final shipment – into one controlled flow.

START WITH individual process areas and scale as production grows, while the solution adapts to new technologies, changing production demands and quality requirements.

TOGETHER WITH Murata Machinery and AGVE, we combine global expertise in automation, software and battery manufacturing

to deliver a reliable, future-ready solution.

YOU BENEFIT from a scalable and efficient production environment, with full control and reliable performance, ready to meet growing demand.

SUCCESS SERVICES

Delivering peace of mind

Automation is a long-term investment. Our Success Services keep your system efficient, reliable and ready for the future.

WITH 24/7 SUPPORT, preventive and corrective maintenance, and proactive monitoring, we help you avoid disruptions and maintain performance. One point of contact connects you directly to an expert at any time for fast resolution.

THROUGH UPGRADES and lifecycle services, your system evolves with changing business needs, higher volumes and new technologies without compromising reliability.

CERTIFIED SPARE PARTS ensure availability, reduce risk and extend system lifetime.

WITH TARGETED TRAINING, your team gains the skills and confidence to operate and maintain the system at its best.

**WE HELP YOU STAY
PRODUCTIVE, TODAY
AND TOMORROW.**
